Vision

To provide best quality education in the field of Engineering and Technology to the aspirants and serve the nation through development of scientific, creative, trustworthy human asset.

Mission

1. To meet engineering manpower needs for social, techno-economic development of region and nation
2. To contribute to knowledge through research and development.
3. To imbibe habits of creativity and innovation to generate IPRS.

Vision

To provide best quality engineering and technology education to aspirants and serve the nation through development of innovative human asset

Mission

1. To meet engineering manpower needs for social, technological, an economic development of region and nation
2. To contribute to knowledge through research and development.
3. To imbibe habits of creativity and innovation to generate IPRS.
4. To inculcate noble values of ethics, morality, integrity, and human
5. To get global accreditation for all courses.

Vision of the Department
 TO PROVIDE BEST EDUCATION IN MECHANICAL ENGINEERING AND TECHNOLOGY TO THE ASPIRANTS AND SERVE THE NATION THROUGH DEVELOPMENT OF INNOVATIVE HUMAN ASSET.

- Mission of the Department**
- M1: TO MAKE THE DEPARTMENT OF MECHANICAL ENGINEERING A PREFERABLE DESTINATION FOR ASPIRING STUDENTS
 - M2: TO PROVIDE QUALITY TECHNICAL EDUCATION USING MODERN TOOLS IN THE FIELD OF MECHANICAL ENGINEERING.
 - M3: TO CREATE COMPETENT AND SKILLED MECHANICAL ENGINEERS WHO ARE ABLE TO HANDLE MECHANICAL AND ALLIED SYSTEMS
 - M4: CULTIVATE AND NURTURE THE SPIRIT OF ENTREPRENEURSHIP AMONG STUDENTS

Vision of the Department

To provide best quality education in the field of Engineering and Technology to the aspirants and serve the nation through developments of scientific, creative, trustworthy human asset.

Mission of the Department

- To meet engineering manpower needs for social, techno-economical development of region and nation
- To contribute to knowledge through research and development.
- To imbibe habits of creativity and innovation to generate IPRS.
- To inculcate noble values of ethics, morality, integrity, and humanity.
- To get global accreditation for all courses.

Vision

To provide best education in electrical engineering and technology to the aspirants and serve the nation through development innovative human asset.

Mission

- M1: To make the department of electrical engineering a preferred destination for admissions.
- M2: To provide quality technical education using modern tools the field of electrical engineering.
- M3: To create competent and skilled electrical engineers who are able to handle electric and allied systems.
- M4: To make the department of electrical engineering learning an agile center to nurture the spirit of innovation, creativity and entrepreneurship among the students and the faculty members.

Constitution of Department Advisory Board

To bring continuous improvement, Department Advisory Board (DAB) has been formed. The committee develops and recommends new or revised goals and objectives of the program. The committee also reviews and analyzes the gap between curriculum and Industry requirement and gives necessary feedback or advice actions.

The DAB consists of faculty members of the department, academicians from other institution, resource persons from Industry, alumni, and parents.

Following are the Members of the DAB:-

Sr.no	Name of Faculty	Role/ Designation
1	Dr. D. V. Ghewade	Principal, DADSCOE, Bhadgaon.
2	Dr. M. M. Mujumdar	Professor in Civil Engineering, KIT College of Engineering, Kolhapur.
3	Dr. M. S. Salunkhe	Associate Professor in Civil Engineering, DOT Shivaji University, Kolhapur.
4	Mr. C. S. Kulkarani	CEO, CSK Construction Pvt. Lmt, Gadhinglaj.
5	Mr. A. M. Sutar	Architecture, A Space Construction, Kolhapur.
6	Mr. P. M. Kori	Alumni Representative-2020 Batch.
7	Mr. S. R. Wadagule	Asst. Professor in Civil Engineering, DADSCOE, Bhadgaon.
8	Mrs. P. S. Shiragavi	Asst. Professor in Civil Engineering, DADSCOE, Bhadgaon.
9	Mr. R. V. Savyanavar	Asst. Professor in Civil Engineering, DADSCOE, Bhadgaon.
10	Mr. B.I Chaugule	Parent Representative
11	Mr. Prasad Kumbhar	Student Representative
12	Mr. A. S. Madakari	HOD of Civil Engineering, Secretary DAB, DADSCOE, Bhadgaon.

8	Mrs. P. S. Shiragavi	Asst. Professor in Civil Engineering, DADSCOE, Bhadgaon.
9	Mr. R. V. Savyanavar	Asst. Professor in Civil Engineering, DADSCOE, Bhadgaon.
10	Mr. B.I Chaugule	Parent Representative
11	Mr. Prasad Kumbhar	Student Representative
12	Mr. A. S. Madakari	HOD of Civil Engineering, Secretary DAB, DADSCOE, Bhadgaon.

The details of the meeting are as follows.

Agenda of the meeting

1. Discussion of previous academic year result.
2. Steps to be taken to improve result.
- 3.To carry additional activities to overall development of students.
- 4.To decide activity plan for NAAC.
- 5.Other points if any.

Minutes of the meeting

1. To confirm minutes of the last meeting -

Mr. A. S. Madakari welcome the committee members also introduced all the expert from industry as well as academics.

To discuss previous academic year result of department -

Mr. A. S. Madakari presented the result analysis of the Department. All present members discussed about the same.

2. Steps to be taken to improve result -

Mrs. P. S. Shiragavi presented the general suggestions/comments received from our entire stakeholders regarding improving the results of Department. The suggestions given to improve results were conduction of extra classes, conduction of topic wise test & to give special attention towards weaker students.

2. To carry additional activities to overall development of students -

Co-Curricular activities should be implemented. Each student should be motivated to participate in Co-Curricular activities. In this opportunity to the students to showcase their technical awareness & presentation skills is provided.

Mr.C.S.Kulkarani suggested implementing the additional curriculum activity on project management utilizing emerging trends viz, New construction materials and techniques.

Mr. Pratik Kori suggested focusing on Co-curricular activities by maximizing the involvement of Industries/organization with whom we have undergone MOUs.

All members approved the same.

3. To decide activity plan for NAAC -

Dr. D. V. Ghewade (Principal) recapped the dream of NAAC accreditation. It was decided by all members to achieve NAAC accreditation till February 2024.

4. Other points if any -

All present member suggested to focus on overall development of the Department to the next level for achieving the Vision of the Department through various missions, in upcoming years.

Mr.R.V.Savyanavar concluded the meeting by giving vote of thanks.

No 0 0 3 5 8

Date: 15/09/2021

To,

17 SEP 2021

The Principal/ Director,
All-affiliated Engineering Colleges/ Institute,
Shivaji University, Kolhapur.

Subject : Regarding revised Syllabus and equivalence of CBCS Final Year B.Tech.
Part-IV Sem-VII-VIII Program under Faculty of Science and Technology.

Sir/Madam,

With reference to the subject mentioned above, I am directed to inform you that the University Authorities have accepted and granted approval to structure and Syllabus of CBCS Final Year B.Tech. Part-IV Sem-VII-VIII under the Faculty of Science & Technology.

B. Tech. Programme (Branch)

1.	Civil Engineering & Technology
2.	Mechanical Engineering & Technology
3.	Electrical Engineering & Technology
4.	Chemical Engineering & Technology
5.	Electronics Engineering & Technology
6.	Electronics and Telecommunication Engineering & Technology
7.	Computer Science Engineering & Technology
8.	Information Technology Engineering & Technology
9.	Production

This revised syllabus and equivalence shall be implemented with effect from the academic year 2021-2022 (i.e. from June 2021) onwards. A soft copy containing syllabus is attached herewith and it is available on university website- www.unishivaji.ac.in.

The question papers on the pre-revised syllabi of above mentioned course will be set for the examinations to be held in October /November 2021 & March/April 2022. These chances are available for repeater students, if any.

You are, therefore, requested to bring this to the notice of all students and teachers concerned.

Thanking you,

Yours faithfully,
Dy. Registrar

SU/BOS/Sci. & Tech/7400

Date: 21/07/2018

To,

The Principal/ Director,
All affiliated Engineering Colleges/ Institute,
Shivaji University, Kolhapur.

Subject : Regarding Guidelines, structure, of CBCS B. Tech. Program and syllabus of First Year B. Tech. Program under Faculty of Science and Technology.

Sir/Madam,

With reference to the subject mentioned above, I am directed to inform you that the University Authorities have accepted and granted approval to Guidelines, structure of CBCS B. Tech. Program and syllabus of First Year B. Tech. Program to following branches under Faculty of Science and Technology:

B. Tech. Programme (Branch)

1.	Civil Engineering & Technology
2.	Mechanical Engineering & Technology
3.	Production Engineering & Technology
4.	Automobile Engineering & Technology
5.	Electrical Engineering & Technology
6.	Chemical Engineering & Technology
7.	Electronics Engineering & Technology
8.	Electronics and Telecommunication Engineering & Technology
9.	Biotechnology Engineering & Technology
10.	Information Technology Engineering & Technology
11.	Environmental Engineering & Technology
12.	Computer Science Engineering & Technology

The revised syllabi shall be implemented from the academic year 2018-19 (i.e. from July 2018) onwards. A soft copy containing CBCS Guidelines, structure, and syllabus of First Year B. Tech. is enclosed herewith. The syllabus is also made available on university website www.unishivaji.ac.in.

Further, it is hereby informed that the question papers on the pre-revised syllabi shall be set for the examination to be held in October/November 2018 and April/May 2019. These chances are available for repeater students, if any.

You are therefore, requested to bring this to the notice of all students and teachers concerned.

Thanking you,

Yours faithfully,

Dy. Registrar

Encl.: as above.

Copy to-

- 1) I/c Dean, Faculty of Science & Technology
 - 2) Director, Examination and Evaluation
 - 3) The Chairman, respective BOS / Co-ordinating Committee
 - 4) O.E. 4 Section
 - 5) Appointment Section
 - 6) Eligibility Section
 - 7) Meeting Section
- For information
For information & necessary action.

SHIVAJI UNIVERSITY, KOLHAPUR

Accredited by NAAC 'A' Grade

Syllabus for

Bachelor of Technology

(B. Tech.) Program

(To be implemented from June, 2018 onwards)

SHIVAJI UNIVERSITY, KOLHAPUR
FIRST YEAR ENGINEERING AND TECHNOLOGY

Structure and Syllabus

(From the Academic Year 2018-2019)

(Course common to all branches except Architecture and Textile Engineering)

INSTRUCTIONS:

There are two groups in each semester:

1. Physics Group and

2. Chemistry Group

Allotment of groups to students:

a) Semester I: 50% students from each college will be admitted to Physics Group and remaining 50% will be admitted to Chemistry Group. The concerned College will decide the number and names of the students to be admitted in physics and chemistry groups and inform the same to the University.

b) Semester II: The students for Physics group in semester-I will be admitted to Chemistry Group in semester-II. The students for Chemistry Group in semester-I will be admitted to Physics Group in semester-II.

		Total		26

*****For Theory CIE 30 Marks,**

Two tests of 30 marks at college should be conducted and best of two marks should be communicated to university.

*****Guidelines to paper setter:**

In theory ESE examination of 70 marks following pointes should be considered,

1. First question of 10 marks should be allotted to Objective type questions.
2. In Remaining 60 marks, four questions of 15 marks should be considered.

CIE- Continuous Internal
Evaluation ESE – End Semester
Examination

• Candidate contact hours per week : 30 Hours(Minimum)	• Total Marks for T.E. Sem V & VI :1725
• Theory and Practical Lectures : 60 Minutes Each	• Total Credits for T.E. Sem V & VI :50
• In theory examination there will be a passing based on separate head of passing for examination of CIE and ESE.	
• There shall be separate passing for theory and practical (term work)courses.	

Note:

1. **BSC-EE:** Basic Science Course- Electrical Engineering are compulsory.
2. **PCC-EE:** Professional Core course –Electrical Engineering are compulsory.
3. **OCE-EE:** Open Course Elective for the students from other discipline

Semester V

Sr. No	Code No.	Subject	Credits
1.	PCC-EE301	Digital Electronics And Micro Processor	4
2.	OCE-EE301	Open Elective – I	3
3.	PCC-EE302	AC Machines	4
4.	PCC-EE303	Power System-II	4
5.	PCC-EE304	Advanced Control System	4
6.	PCC-EE305	Signals & Systems	4
7.	PCC-EE306	MATLAB	2
Total			25

Semester VI

Sr. No	Code No.	Subject	Credits
1.	PCC-EE307	Digital Signal Processing	4
2.	OCE-EE302	Open Elective – II	3
3.	PCC-EE308	Electrical Machine Design	6
4.	PCC-EE309	Power System Stability And Control	5
5.	PCC-EE310	Electrical Drives- I	4
6.	PCC-EE311	Electrical Installations testing and maintenance	3
Total			25

Open Elective – I (Any One)

1	Electrical Appliances And Luminaries
2	Domestic /Industrial Electrical Installation, Estimation And Costing

Open Elective – II (Any One)

1	Electrical Energy Audit And Conservation
2	PLC & SCADA

SHIVAJI UNIVERSITY KOLHAPUR

Elective Choice Form

Academic Year: 2023-24

Semester- VIII

Class: Final Year

Division: A

Terms and Conditions:

- 1) Once selected, the elective will be Final
- 2) Under any circumstances this elective will not be changed.

Elective-II (Subjects)

- 1) Hydrology & Watershed Management
- 2) Site Investigation Methods & Practice
- 3) Industrial Waste Treatment
- 4) Advanced Construction Technique
- 5) Engg. Geology
- 6) Valuation of Real Estate
- 7) Construction Practice
- 8) Air Pollution & Control
- 9) Water Power Engg.

Elective-III (Subjects)

- 1) Design of Bridges
- 2) Maintenance, Retrofitting, Rehabilitation of structures
- 3) Advanced Foundation Engg.
- 4) Advanced Pre-stressed concrete Design
- 5) Structural Design Foundation & Retaining
- 6) Dynamics of Structures
- 7) Finite Element Method
- 8) Advanced Design of Concrete

Elective II/IV (Subjects)

- 1) Total Quality management
- 2) Industrial product Design
- 3) Advanced Forming Processes
- 4) Design of thermal system
- 5) Smart materials

Sr. No.	Name of the Activity	Purpose of Activity
1	Technical Competitions like Tech-manthan, Project Competitions	The purpose for conducting such a competition for sharing their projects ideas with the world
2	Participation in Paper Presentation Competition / Publications / Conferences	Participation in Conferences helps to exchange knowledge also helps students to gain deeper insights after meeting people and make meaningful connections, and bring back valuable ideas and strategies.
3	Extra and Co-curricular Activities	Co-curricular activities improve the learning experiences of students, help them identify and develop their inner talents like creative & public speaking skills, leadership qualities, etc.
4	Quiz Solving and Group discussion	It encourages active participation, exchange of ideas and boosts confidence of students when they are able to provide the solutions by themselves. It improves their analytical thinking and problem-solving skills to a great extent.

ICT Enabled Tools in Teaching-Learning Process

Analysis of DC Circuits

PRESENTED BY:
DR. A. D. SHINDE
 PROFESSOR OF ELECTRICAL ENGINEERING
 P.E.A.D. SHINDE COLLEGE OF
 ENGINEERING, TAL. GATKOT.

Contents

1. Fundamental of DC circuits
2. Concept of EMF
3. Potential difference
4. Current
5. Resistance
6. Ohm's Law
7. Kirchhoff's Law
8. Mesh and node analysis
9. Numericals

Fundamental of magnetic circuit

On a DC circuit, current flows in one direction only. When an electric field is applied, the charges move in a straight line. The resistance of DC is less than AC, because of the absence of skin effect, proximity effect, and DC resistance. The main fundamental equation describing DC circuit is Ohm's Law.

Diagram

- The magnetic circuit is a closed loop through which magnetic flux flows.
- The magnetic circuit is a closed loop through which magnetic flux flows.
- The magnetic circuit is a closed loop through which magnetic flux flows.

Concept of EMF

It is defined as the electrical force that causes to move the electrons in a circuit. It is denoted by E and its unit is volt.

- $e = V + Ir$
- V is the voltage of the cell
- I is the current across the circuit
- r is the internal resistance of the cell
- e is the electromotive force

Potential difference

The difference in potential between two points that represents the work involved or the energy retained in the transfer of a unit quantity of electricity from one point to the other. It is denoted by PD and its unit is volt.

Potential Difference Video

Current

It is defined as the movement of electrons or flow of electric charge in a circuit. It is denoted by I and its unit is ampere.

Resistance

Resistance is a measure of the opposition to current flow in an electrical circuit. Resistance is measured in ohms, symbolized by the Greek letter omega (Ω). Ohm is named after Georg Simon Ohm (1789-1854), a German physicist who studied the relationship between voltage, current and resistance.

Electric Current

The electric current is the continuous flow of electrons in an electric circuit.

Subject: Students Visit – regarding study of various construction processes & principle of planning.

Respected sir,

Dr. A. D. Shinde College of engineering is one of the renowned institutes in western Maharashtra established in 2014. Our institute is approved by AICTE New Delhi, recognized by DTE Mumbai, affiliated to Shivaji University Kolhapur and accredited by NAAC with B+ Grade. We are offering 5 UG course in Civil, Mechanical, Electrical, Computer Science and Electronics and Computer Science with intake of 300. Our institute has played very important role in providing quality technical education to rural youth and contributed to national growth. Our distinguished alumni are working at top posts in various companies all across the world.

First year Engineering students of our institute are interested in visiting your construction site to study of various construction processes & principle of planning. 40 Students with 3 faculty members will be visiting your construction site on dated 18th April 2024. Travelling and other expenses will be borne by us. Kindly consider our request and extend your kind permission to our students.

Thanking you

Sincerely yours

Dr. D. V. Ghewade

VISIT REPORT - RADHANAGARI DAM

2.1 Information

Radhanagari Dam is a gravity dam on Bhogawati river near Radhanagari in the state of Maharashtra (India). Construction was initiated by visionary Rajarshi Shahu on 18 February 1907. The dam is being used for irrigation as well as hydro-electricity. The dam is located amidst scenic surrounding in the backdrop of thick forest cover.

The scheme was suggested by Pandurangrao Krishnajirao Shinde, Considering the suggested advantage towards increasing irrigated land up to 15000 hectares and satisfying Kolhapur municipal water requirement, the share capital raised was paid back to concerned shareholders who had planned for thermo-electric (by letting all water into Konkan for electricity generation) and mining project. Because of Mr Shinde's suggestion, the scheme was handed over to government in interest of people, after the capital invested was realised. Scheme was approved by Rajaram Maharaj or else would have been a thermal electric project, in favour of British industrial syndicate as suggested in the Second opinion of Sir Vishveswarayya. In 1941 PK Shinde was specially appointed as Chief Engineer due to his technical competency and experience.

Today Radhanagari Dam is the main reason for flourishing agriculture, and jiggy industry in Kolhapur District. The water need of Municipal Corporation of Kolhapur is satisfied through this dam. Radhanagari Dam supports large variety of Flora and Fauna. It is surrounded by dense forest and has wide variety of wildlife and naturally evolved ecosystem.

It was because of Mr P K Shinde's efforts that thermo-electric project and mining for metals was side-lined. Radhanagari Dam not only has a technology worth studying but also a history that changed the fate of agriculture in Kolhapur.

2.2 History

In order to permanently solve the drought in the state of Kolhapur, Pati Shahu Maharaj set up small and large irrigation projects in his state, the largest of which is "Maharani Lakshmibai Lake", the construction of this project started on November 14, 1909, in the limits of Fejiwade village on the river Bhogawati. This was the largest irrigation project in India at the time and was completed by a low-income state like Kolhapur. After the completion of this project in the vision of Chhatrapati Shahu Maharaj, Kolhapur state and Kolhapur district have never been affected by drought till date.

Maharaja considered the construction of Radhanagari project as his life's work. Maharaja recognized the importance of irrigation 100 years ago and gave the highest priority to the work of this project. Maharaj himself used to economize for the enormous expenses incurred

for this dam project. Maharaj used to say "My life work will have been done when I complete this project". This project has a unique importance in the overall development of Kolhapur district.

2.3 Specification

This dam is famous for its automatically operated 7 gates, which doesn't require any electrical or mechanical power to operate it. Till now this technology is not in any of the dam in India, except this dam. The height of the dam above lowest foundation is 42.68 m (140.0 ft) while the length is 1,143 m (3,750 ft). The gross storage capacity is 236,810,000 m³ (8.363×10⁹ cu ft).

2.4 Components of Dam

The components of dams play an important role in maintaining the primary responsibility of water management. The parts of the dams are broadly classified as Water-retaining structure, Water-releasing structure, Water conveying structure.

2.4.1 Water-retaining structure – Components of Dam

The water-retaining structure is the dam's walled structure that resists water while allowing a controlled amount to flow downstream. Accordingly, the side of the barrier where water is collected is known as the upstream side, and where the water flows is known as the downstream side. Generally, the following component of dams makes up the dam's water-retention section.

- i) Heel
- ii) Toe
- iii) Abutment
- iv) Crest
- v) Cutoff
- vi) Parapet wall

i) Heel

The part of the dams meeting with the groundwater or upstream side is called the heel.

ii) Toe

The portion of the dams meeting with the groundwater or downstream side is called the Toe.

iii) Abutment

Abutments support the lateral pressure. These are the sides of the valley. These are concrete or masonry structures.

iv) Crest/Roadway of Dams

The section of the dams used as a roadway or walkway is the crest. It is the upper area of the dam.

v) Cut off

The cut-off is an impervious barrier constructed beneath the earthen dams. The main function is to reduce the loss of stored water in the reservoir by preventing seepage. cut off –

Earthen dams

vi) Parapet wall

The parapet wall is seen below the crest near the roadway. This assists in the dam investigation and safety barriers.

2.4.2 Water-releasing structure: Components of dams

Mainly, the components of dams that allow water to flow downstream are known as the water-releasing structure. Generally, these dam components are technically known as the dam's spillways. Generally, the spillway's mechanism allows for controlled water volume. A spillway contains the following components.

- i) Galleries
- ii) Spillways
- iii) Diversion tunnel
- iv) Sluiceway
- v) Freeboard

i) Galleries

These are hollow openings passing through the dam as shown in fig. The main purpose of providing a drainage gallery is to collect seepage water from the foundation and body of the dam and drain it out. The seepage water received by foundation galleries is drained away under gravity. The galleries are broadly divided into:

- a) Grouting gallery
- b) Inspection Gallery
- c) Drainage gallery
- d) Valve gallery
- e) Transformer Gallery

ii) Spillway

The role of the spillway is to convey excess water and prevent damage. The water passes from upstream to downstream. The spillway helps in the emergency discharge of water. They are two varieties:

- a) Controlled spillway
- b) Uncontrolled spillway

In a controlled spillway the flood flow is regulated by the gate.

iii) Diversion tunnel

The purpose of the diversion canal is to redirect the water. Diversion tunnels are constructed during the construction stage of dams. A diversion tunnel may also be constructed to divert floodwater to divert water from mountainous regions to low-lying areas experiencing a water shortage supply.

iv) Sluice way

The role of the sluiceway is to remove the silt accumulated.

v) Freeboard

The interval between the dam heads to the maximum water level on the upstream side.

Sub: PERMISSION LETTER FOR HYDRAULIC ELECTRICITY GENERATION UNIT (TILARI DAM)

Dear Sir,

On behalf of **Dr. A. D. Shinde College of Engineering** where we, Students of Second Year and Final Year pursue our Civil Engineering technical course wish to request for permission to conduct an industrial visit at the hydroelectric power station. Our college **Dr. A. D. Shinde College of Engineering** is reputed at providing quality education in the various courses in (Gadhinglaj), Dist Kolhapur recently accredited with B+ Grading in NAAC evaluation 2023-24.

We wish to undertake an industrial visit at hydroelectric power station on 05/04/2024 to acquire practical knowledge in (STUDY OF TURBINES AND ITS FUNCTIONING). Our academic curriculum focuses on engaging students in practical experiences to observe the implementation of what they are taught in FLUID MECHANICS & WATER RESOURCE ENGG. We believe that the deputed staff will render our students relevant knowledge during this visit.

A group of 28 students studying in second year and final year Civil Engineering and two faculty members intend to participate in this industrial visit. Kindly make arrangements for a tour in the relevant departments.

Hope you understand the need of the students and will take the subject with due weightage and grant us the permission.

Any suggestion/instructions from your end will be duly abided.

Sub: Grant of permission for industrial visit at Tilari Hydro Power Station

Ref: Your Letter No. Nil dtd 02.04.2024

Dear Sir/Madam,

With reference to above, this is to inform that the permission is hereby granted for Industrial visit to the students of your college on below given dates.

Sr. No	No of the students + staff members	Name of the HPS	Date	Time
1	28 students + 2 staff	Tilari HPS	05 April 2024	10:00 AM to 16:00 PM

Terms & conditions:

You may report to Shri. Jogur V. S. Executive Engineer, contact no. 9420023130 during the period of visit.

- Students shall abide by the rules & regulations of the company & observe discipline during visit.
- No entry without mask & social distancing should be followed by visitors. One batch will be of 28 students along with college representative. Precaution shall be taken so that normal working in the plant is not hampered.
- They shall make their own arrangement for residential accommodation, transportation, lodging boarding etc.
- They should contact our Security Officer well before commencement of visit and obtain suitable gate pass for entry at 10:00 am.
- At least one staff member must be present along with the students to take care of their safety & security within & outside the premises during visit.
- The visit is allowed as per your request only & it will not create any right or obligation on the company.
- Students should possess Identity Card of their college during the visit. No loose clothes allowed.
- They shall follow all safety rules and use of protective equipments like apron and safety shoes as per factory rules. (Shoes are compulsory).
- Mobile will not be allowed strictly.

Subject: Students Visit – Engineering, Regarding study of Airport Engineering

Respected sir,

Dr. A. D. Shinde College of engineering is one of the renowned institutes in western Maharashtra established in 2014. Our institute is approved by AICTE New Delhi, recognized by DTE Mumbai, affiliated to Shivaji University Kolhapur and accredited by NAAC with B⁺ Grade. We are offering 5 UG course in Civil, Mechanical, Electrical, Computer Science and Electronics and Computer Science with intake of 300. Our institute has played very important role in providing quality technical education to rural youth and contributed to national growth. Our distinguished alumni are working at top posts in various companies all across the world.

Final year Civil Engineering students of our institute are interested visiting Kolhapur Airport to study current technologies uses by Airport and study the other facilities. 45 Students with 3 faculty members will be visiting airport if permitted to visit on any convenient day. The Aadhar card of the students is enclosed herewith for your kind perusal. Accommodation, travel, and other expenses will be covered by us. Kindly consider our request and extend your kind permission to our students.

Thanking you

Yours Sincerely
