<p>The “World Environment Day” celebrated with collaboration with the “NSS” wing of our organization. World Environment Day, observed annually on June 5th, is a global event that raises awareness about environmental issues and encourages action to protect and preserve our planet. Initiated by the United Nations in 1972, this day has grown into a worldwide platform for promoting positive environmental change. Each year, it focuses on a specific theme that highlights a particular environmental issue, inspiring communities, governments, and organizations worldwide to make sustainable choices and protect the earth’s resources.</p> <p>The event was inaugurated by the principal, who highlighted the importance of trees and greenery in combating climate change and creating a healthy environment for future generations. A brief speech was also delivered by a guest speaker, an environmentalist, who emphasized the ecological and community benefits of tree planting.</p>	

On the occasion of world environment day, our college organized a tree plantation event as part of its ongoing commitment to promoting environmental sustainability and combating climate change. The event, held on the college campus and attracted enthusiastic participation from students, faculty, and staff.
